

# WAIVER FINANCIAL JUSTIFICATION TEMPLATE

Transitional Housing Program  
NILPF Framework – 2026

---

## [INSTRUCTIONS – DELETE BEFORE USE]

- Replace all **[BRACKETS]**
  - Adjust all costs based on **local Fair Market Value (FMV)**
  - Use real numbers when submitting to programs or funders
- 

## 1. PURPOSE OF REQUEST

The Program respectfully requests approval for an enhanced per diem rate to support the operational requirements of a structured transitional housing environment.

The Program provides shared residential housing designed to promote stability, accountability, and successful reintegration into the community.

Due to the nature of the housing model and required operational support, standard per diem rates may be insufficient to sustain program operations at the required level of quality and compliance.

---

## 2. PROGRAM DETAILS

Total Bedrooms: **[#]**

Housing Type: **[Shared / Scattered Site / Single Family / Other]**

Location: **[City, State]**

The Program operates at or near full capacity to maximize housing availability for individuals transitioning from homelessness or reentry.

---

## 4. COST PER PARTICIPANT

Total Monthly Cost: [\$\_\_\_\_\_]

Total Participants: [#]

👉 Cost per Participant: [\$\_\_\_\_\_ / month]

---

## 5. LIMITATIONS OF STANDARD PER DIEM

Standard per diem rates must cover housing, administrative coordination, documentation requirements, program structure, and operational overhead.

Due to local housing costs, inflation, and compliance requirements, base rates may not sufficiently support program sustainability while maintaining quality standards.

---

## 6. JUSTIFICATION FOR ENHANCED RATE

### A. Shared Housing Complexity

Shared housing environments require increased coordination, maintenance, and oversight due to multiple occupants.

---

### B. Documentation & Compliance

The Program maintains structured documentation including tracking, reporting, and monitoring, requiring dedicated administrative effort.

---

### C. Program Stability

The Program provides a structured environment focused on accountability and progression, requiring consistent oversight.

---

### D. Cost of Safe Housing

Utilities, maintenance, and replacement costs are elevated in shared housing environments.

---

## 7. REQUESTED RATE

The Program requests consideration for an enhanced per diem rate aligned with actual operational costs and program requirements.

All rates must be adjusted based on **local Fair Market Value (FMV)** and verified program costs.

---

## 8. IMPACT OF APPROVAL

Approval of an enhanced rate will:

- Maintain program operations
  - Preserve housing capacity
  - Improve participant outcomes
  - Reduce risk of homelessness and recidivism
- 

## 9. CONCLUSION

The Program is committed to providing structured, stable housing that supports long-term independence.

Enhanced per diem support is necessary to sustain operations, maintain compliance, and ensure quality outcomes.

## 10. NOTE

Calculations for this document may be completed using the included **Housing Cost Calculator**.
